WASHINGTON, DC 20460

1999 Model Year Certificate of Conformity

Manufacturer: **Deutz AG**
Certificate Number: **DZX-NR 399-02**
Effective Date: **2/15/99**
Date Issued: **2/15/99**

Jane Armstrong, Director, VPCD
Office Of Mobile Sources

Pursuant to Section 213 of the Clean Air Act (42 U.S.C. section 7547) and 40 CFR 89, and subject to the terms and conditions prescribed in those provisions and the conditions below, this certificate of conformity is hereby issued with respect to the test engines which have been found to conform to applicable requirements and which represent the following nonroad engines, by engine family, more fully described in the documentation required by 40 CFR Part 89 and produced in the stated model year.

Nonroad Diesel Engine Family:**XDZXL02.9017 FM1011F 250hp**

This certificate of conformity covers only those new nonroad compression-ignition engines which conform in all material respects to the design specifications that applied to those engines described in the documentation required by 40 CFR Part 89 and which are produced during the model year stated on this certificate of the said manufacturer, as defined in 40 CFR Part 89. This certificate of conformity does not cover nonroad engines imported prior to the effective date of the certificate.

It is a term of this certificate that the manufacturer shall consent to all inspections described in 40 CFR 89.129-96 and 89.506-96 and authorized in a warrant or court order. Failure to comply with the requirements of such a warrant or court order may lead to revocation or suspension of this certificate for reasons specified in 40 CFR Part 89. It is also a term of this certificate that this certificate may be revoked or suspended or rendered void ab initio for other reasons specified in 40 CFR Part 89.

This certificate is also subject to the following conditions:

- 1) Deutz must submit to the Agency, via a running change, emissions data representing the worst-case configuration, as defined in 40 CFR 89.117 by March 29, 1999.
- 2) The emissions data submitted by Deutz must demonstrate that this engine family, for both variable speed and generator-set engines, meets the applicable emissions standards.

If the emissions data submitted by Deutz does not demonstrate compliance with the applicable standards, or if the data is not submitted to EPA by the date above, Deutz agrees to recall all engines of this engine family produced from the time this certificate is conditionally granted, at no expense to the owner.

This certificate does not cover nonroad engines sold, offered for sale, or introduced, or delivered for introduction, into commerce in the U.S. prior to the effective date of the certificate.
